

Water Quality Report 2023

Conscious Water is purified water from either natural or municipal sources with natural minerals and readily bioavailable electrolytes reintroduced in precise amounts after filtration to create an enjoyably smooth taste, and optimal hydration experience.

The following water analysis illustrates Conscious Water Company's premium quality standards that meet and exceed the requirements for safe drinking water as set forth by the FDA, EPA, and local regulatory requirements in compliance with regulatory bottled water quality standards.

For more information, questions, or concerns, please contact: info@drinkconscious.com

Conscious Water Company | Water Quality Report 2023

MineralPlus™	results
Magnesium	48 mg/L
Calcium	3.8 mg/L
Chloride	130 mg/L
Sodium	3.2 mg/L
Potassium	1.3 mg/L
Zinc	21 ug/l

AlkaPure	results
Calcium	3.38 mg/L
Magnesium	1.4 mg/L
